

JEDI FIRESIDE CHAT SERIES

KIDS GROWING UP

JEDI Fireside Chat Series is an initiative designed to gather the voice of our members and promote Justice, Equity, Diversity and Inclusion across our Region.

The series will share the stories of young people and explore how learning environments can support them as well as building awareness of the barriers to engagement they experience.

Following inspirational presentations by the 2023 Mayfield Project team and LEA JEDI Committee at the LEA 2023 Regional Conference held in New Zealand, LESA and LEWA Chapters have joined together to present this event.

LEWA Chapter Chair-Elect Chloe Summers, originally from Adelaide, and her brother Mike will share Mike's story of growing up with vision impairment and his experiences through schooling in SA.

The format of the evening will be a Fireside Chat between current LEA International Director Deb O'Riley, Mike and Chloe.

The event will be live streamed to share with our co-conveners of this event, LEWA, and the wider Regional audience.

Brickworks Studio have kindly offered their sponsorship for this event, providing a beautiful venue and pre-event networking drinks from 5pm.

In person attendance will be limited to 50 people, so book early.
