Learning outcomes, relating to the National Standard of Competency for Architects (NSCA) 2021.

- PC 18 = Be able to apply creative imagination, design precedents, research, emergent knowledge and critical evaluation in formulating and refining concept design options, including the exploration of three dimensional form and spatial quality.
- PC 24 - Be able to prepare and analyse project development options in response to a project brief – its objectives, budget, user intent and built purpose, risk and timeframes, including environmental sustainability considerations.
- PC 26 - Be able to undertake site, cultural and contextual analysis as part of preliminary design research.
- PC 34 - Communicate conceptual design proposals and associated information to client, stakeholders and communities using appropriate and culturally responsive methods appropriate to different audiences

Please complete the following questions and submit to nsw@a4le.org.au, by 14th March 2022, with your name and Architectural Registration Number. also please retain a copy for your records:

1. What do you think are the most interesting/innovative elements of this teaching / learning facility? Why?
2. How were the site's cultural and contextual elements considered in the development of the learning spaces (indoor and outdoor)?
3. How has the client's clear vision for learning impacted the design of the learning spaces?
4. What methods were used to communicate the design proposal to various stakeholders? How successful were these methods?
5. What parts of processes outlined may be applicable to projects you are currently working on?

Note: these questions are developed for a NSW audience, but may be applicable for CPD in other States, please refer to your relevant State Architect Registration Board for further information.
