

# WINDERMERE KINDERGARTEN

SITE VISIT - 3PM. 1<sup>st</sup> AUGUST 2019

Learning Environments Australasia and the Department of Education invite you on a site visit to the recently completed Windermere Kindergarten

The Windemere Early Learning Centre comprises a series of flexible learning spaces that are set up to primarily accommodate kindergarten and prep age groups.

All learning spaces connect directly to outdoors via large sliding glass doors; interiors are flooded with natural light from large sections of glazing, and environmental features such as cross-flow ventilation, high quality insulation, and the use of passive solar principles ensure that the building environment is healthy, comfortable and positive. Large spaces, plentiful storage and conveniently located amenities contribute to an easy-to-manage teaching environment.
