

AUSTINS FERRY KINDERGARTEN

SITE VISIT - 3 PM. 16TH MAY 2019

Learning Environments Australasia and the Department of Education invite you on a site visit to the recently completed Austins Ferry Early Learning Centre and a presentation on future early childhood D.O.E education by Jodi Upton

The buildings have been designed with best practice learning principles in mind. Classrooms are set around an entrance space which acts as a social hub, kitchen and facilitates larger Launch into Learning sessions. Classrooms have been located and designed to open out onto the playground and harness opportunities for good natural daylighting and views.
