To align with the 3R's of the LEA 2018 Conference, the NSW Chapter seeks to provide opportunities to learn from the threads of reflection, relevance and revolution in real situations.

## The LEA NSW Chapter warmly invites you to Newcastle / Hunter Valley ...

**10.00 am - The day will begin at NeW Space:** The NeW Space project is a new vertical campus for the University of Newcastle within the city's civic precinct. EJE Architecture has designed this site in collaboration with Melbourne based firm Lyons Architects. The \$95million project will accommodate both formal and informal teaching and learning space for approximately 3500 students as well as 400 staff.

### 11.30 am - Travel to Hunter Valley Grammar School (Maitland)

#### 12.00 pm - Tour of the school

Mayoh Architects were engaged to design a new TAS building. The new building includes woodwork and metalwork workshops, a digital fabrication laboratory, a textiles workshop, teaching kitchens, display areas, and staff and storage facilities. This facility is Stage 1 of the master plan. Mayoh will present to you, the next stage.

### 1.00 pm - Lunch at Maitland Regional Art Gallery (MRAG)

#### 2.30 pm - St Patricks Primary School (Lochinvar)

St Patrick's Primary School is an exemplary master planning and architectural solution to the needs of a growing school community with a legacy of outdated and unsuitable school buildings. The **award winning design**, by **SHAC Architects**, accomplishes much with little.
