Time: 2:00pm to 4:00pm
Address: 585 St Pauls Tce, Fortitude Valley
Price: Members \$40 (incl GST)
Non Members \$55 (incl GST)
Refreshments provided.

Thriving in Vertical Schools is an Australian Research Council Linkage Project that looks to study the impact of urban vertical schools on students' capability.

Run by the Queensland University of Technology, and co-lead by Associate Professor Jill Willis, the 3-year project will analyse data collected through intensive research activities with teachers, students and designers at three partnering schools; Fortitude Valley State Secondary College, Adelaide Botanic High School and Prahan High School.

The presentation will be followed by a special tour of the recently completed Sports and Senior Specialist building (Hospitality Kitchens, Art Studios, Textiles/Fashion Studio, Science Labs, Applied Technology) at Fortitude Valley State Secondary College, ending with refreshments on the sky garden.
