NSW LEA in collaboration with OLSH are pleased to invite you to a site visit and workshop event celebrating excellence in education and design.

Explore the sites of the Sacre Couer Collaboration Hub, Library, Administration and Rosebery Primary School, led by designers and end users.

Come hear the story of the inspiration behind the designs of the Sacre Couer Collaboration hub: linking design to the College charism, addressing current pedagogies, providing dynamic, inclusive, and collaborative spaces while reminding the students and visitors that OLSH is a community of “heart people”.

Workshop in the “heart space” with educators and designers to reflect on the different ways these spaces can support learning and learners.

Reflect on the importance of “listening” and collaboration in design.

This event provides something for everyone.
